Route: **138**

Contract Reference: **QC91001**

This Service Specification forms Section 7 of the ITT and should be read in conjunction with the ITT document, Version 2.0, dated 5th March 2021.

You are formally invited to tender for the provision of the bus service detailed below and in accordance with this Service Specification. Tenderers must ensure that a Compliant Tender is submitted, and this will only be considered for evaluation if all parts of the Tender documents, as set out in Section 11, have been received by the Corporation by the Date of Tender. The Tender must be fully completed in the required format, in accordance with the Instructions to Tenderers. A Compliant Tender must comply fully with the requirements of the Framework Agreement and adhere to the requirements of the Service Specification.

SERVICE SPECIFICATION

- 1) SERVICE SPEC - ROUTE SPECIFICATION INFORMATION
- 2) NOTES
- 3) SCHEDULE REQUIREMENTS & PINCHPOINTS
- 4) OPERATIONAL CONSIDERATIONS
- 5) ROUTE RECORD, CURRENT PERFORMANCE, QSI BY TIME OF DAY, IBUS MILEAGE & QSI POINTS

2) NOTES

Proposed Changes:

At this time, no changes are proposed to the existing service for introduction prior to the commencement of the new Route Agreement for Route No. 138.

Tenderers should note that the following alterations (subject to consultation) are proposed as part of this Service Specification for introduction with the new Route Agreement:

Two options are specified:

Option 1

- The current widening in Route No. 138 schedule is removed.

Option 2

- The current widening in Route No. 138 schedule is removed.
- Saturdays early morning frequencies are increased from every 30 minutes to every 20 minutes.

BOTH OPTIONS

- **Tenderers are also encouraged to submit alternative bid prices based upon the best possible frequency that can be provided whilst maintaining the existing PVR of 3.**

Hail & Ride Operation Sections:

Hail and ride operation, with buses stopping wherever it is safe to set down and pick up passengers, applies on the following sections of Route No. 138:

Ex Coney Hall, Chestnut Avenue - Sylvan Way, Layhams Road and Birch Tree Avenue.

Tenderers should provide the following prices:

1. Annualised existing vehicle price (Euro VI diesel or ZE), based upon the contract term shown in section 1. Ideally these should not exceed approximately 15 years of age at contract end, however a flexible approach will be taken to acceptance of vehicles which may exceed this limit. The standard early termination provisions would apply. Prices with and without annualised refurbishment costs should be provided.
2. Annualised existing vehicle price (Euro VI diesel or ZE), based upon a 3-year contract term. Ideally these should not exceed approximately 15 years of age at contract end, however a flexible approach will be taken to acceptance of vehicles which may exceed this limit. The early termination clause would not apply. Prices with and without annualised refurbishment costs should be provided.

Zero emission submissions are optional, for which Tenderers should outline the strategy they would adopt for recharging battery electric and/or refuelling hydrogen buses, together with any other operational and infrastructure assumptions, within the tender submission.

Tenderers are reminded that Version 2.4 of the New Vehicle Specification dated March 2023 applies to all new contracts from Tranche 872 onwards.

Tenderers are reminded that a price submitted for this Route Agreement will be subject to the revised CPA formula of 85% CPI (12 rolling months) and 15% fixed.

The welfare of bus drivers during their working day is essential and appropriate locations for sign-on/off as well as meal reliefs should be identified with the bid. These locations should have appropriate facilities available for drivers at the beginning and end of shifts to carry out their duties (including fitness for duty). For breaks and periods of rest between work there should be appropriate toilet provision (including the availability, condition and cleanliness) and suitable locations to take a break. Whilst the obligation to provide suitable facilities remains with the Tenderer, if there are any risks in not being able to supply these, the Tenderer must make LBSL aware in their bid or at any later stage when this becomes apparent.
